- installing Google Chrome

Google Chrome is a free web browser that takes just minutes to download and install. These instructions provide a step-by-step guide of the installation process.

1. Visit <http://www.google.com/chrome>.
2. Above the download button, verify the browser language from the drop-down menu.
3. Click Download Google Chrome. By downloading the installer file from this site, you can be sure that Google Chrome will be updated with the latest features and security fixes.
4. Review the Terms of Service, and click 'Accept' and 'Install' to continue.
5. Click 'Run' when you are asked "Do you want to run this software?"
6. Once the installer file has been downloaded, a 'Welcome to Google Chrome' dialog box will appear, prompting you to choose the search engine you'd like to use by default in the browser.
7. Your home page settings and browser history will be imported from the default browser automatically. A Google Chrome window opens once everything is set up.

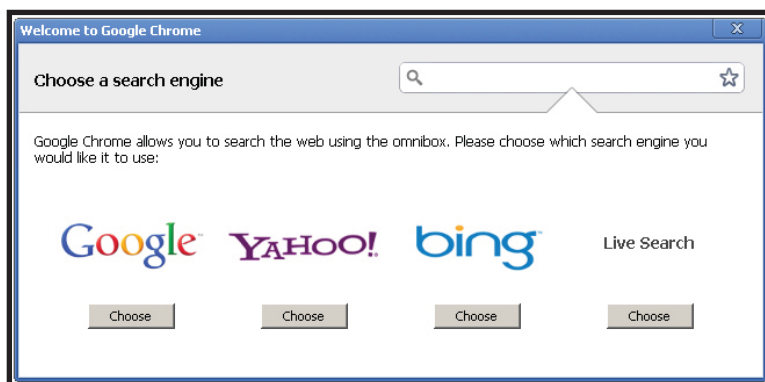

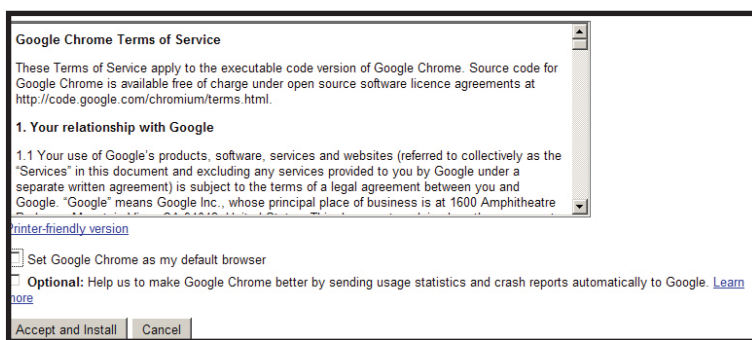

English (UK)

Download Google Chrome

It's free and is installed in seconds

For Windows XP, Vista and 7

TO INSTALL CHROME FROM STAND-ALONE INSTALLER

On the Protrack 7.8 CD a Google Chrome Installer is included.

To install Google Chrome follow these steps below.

1. Find the Chrome Standalone Setup File
(CD Drive:\Tools & Utilities\Browser\ChromeStandaloneSetup.exe)
2. Run the file. Setup will continue and Google Chrome will be installed
