pet's details:

Pet's name:

My pet was born on:

Its breed is:

My pet is a: calf/lamb

and is a: heifer/bull or ram/ewe

My pet was bred by (farmer's name):

Whose farm is at (district):

If your pet is a calf, the farmer may be able to tell you the following details:

My calf's mother (dam) is:

My calf's father (sire) is:

My calf's lifetime identification (number) is:

My calf's ear tag was fitted by (name):

My calf's weight at birth was:

feeding diary:

Weaning (date): Began

Complete

Date	Pet's age	Estimated Weight	Number of feeds per day	What is being fed (eg milk, meal)	Quantity at each feed

training diary:

Week 1 My diary :	Reminders : Choose your calf and give it a name. Make sure it has an ear tag which gives it a lifetime identification number. Before your calf comes home, make sure you have a safe paddock, clean water, fresh grass, milk supply and an easily cleaned milk feeder. Ask the farmer whether your calf needs dehorning.
Week 2 My diary :	Reminders : How is your calf feeding? You should have a halter fitted and be starting to lead it for a short time each day. Spend time with your calf each day, patting, grooming and talking to it so you become friends.
Week 3 My diary :	Reminders : Your calf should be leading and tying up. If you haven't already fitted a cover, you should be thinking of making one so your calf's coat lies flat. Your calf will be growing so check that the halter hasn't become tight.
Week 4 My diary :	Reminders : You should be leading your calf every day, and walking in different patterns so it becomes used to walking alongside you. Practice standing still too and ask Mum or Dad to come and pat the calf so it's used to what will happen at calf club.
Week 5 My diary :	Reminders Keep up the good work until calf club. Follow the guidelines for weaning and for washing and grooming your calf for calf club.
Week 6 My diary :	
Week 7 My diary :	
Week 8 My diary :

training diary:

<p>Week 1 My diary :</p>	<p>Reminders : You have been given a motherless lamb and have everything ready at home for your new pet -</p> <ul style="list-style-type: none"> > A large box with warm bedding > Colostrum > Bottle with lamb teat > Plus everything else on the check list. <p>Give your lamb a name, lots of time, and 6 feeds a day.</p>
<p>Week 2 My diary :</p>	<p>Reminders : How is your lamb feeding? It should be getting 6 feeds a day of warm powdered milk. You should have a collar fitted and be starting to lead it for a short time each day. Spend time with your lamb each day, patting, grooming and talking to it so you become friends.</p>
<p>Week 3 My diary :</p>	<p>Reminders : Your lamb should be leading, stopping when you stop and coming to you when called. Your lamb will be growing so check that the collar hasn't become tight.</p>
<p>Week 4 My diary :</p>	<p>Reminders : You should be leading your lamb every day, and walking in different patterns so it becomes used to walking alongside you. Practice standing still too and ask Mum or Dad to come and pat the lamb so it's used to what will happen at calf club. While they're out there, get them to hold the lamb, and walk say 20 big steps, then turn and call your lamb.</p>
<p>Week 5 My diary :</p>	<p>Reminders Keep up the good work until calf club. Follow the guidelines for weaning and for getting your lamb ready for calf club.</p>
